FINANCIAL AND COMMERCIAL.

TUESDAY, July 29-6 P. M. There was a little better feeling in the stock market to-day. The investment in Erie was particularly active, and it closed with a strong upward ten-dency. The sales at the first board run up nearly six thousand shares, opening at 60%, and closing at 61% per cent. In Reading there was a good deal of activity, but prices were not so well sustained. Cleveland and Toledo was quite firm, with limited transactions. New York Central was steady. Illinois Central bonds sold to a very large extent, at improving prices for the opening. Micnigan Southern Sinking Fund bonds sold at 88 per cent. Only a small lot was sold at that price; they are held higher. We understand that large orders for the purchase of first class railroad bonds are expected by the Arabia's mail. The advance reported in London justifies such anticipations. At the first board to-day New York Central Railroad stock edvanced per cent; Erie, 1; Panama, 1; Cleveland

and Toledo, ‡. Reading declined ‡ per cent; Michigan Central, ‡. A small lot of Galena and Chicago sold at 107½ per cent, dividend of five per cent off. Wisconsin Lake Shore is held above the market. A small sale was made to-day at 68 per cent. Michigan Southern closed at yesterday's prices. For La Crosse and Milwaukie 71 per cent is bid.

After the board the following sales of stocks and bonds were made at auction by Simeon Draper:bonds were made at auction by Simeon Draper:—

At the accord board, the sales of Frie recondenses

At the second board the sales of Erie were large, at rapidly improving prices. It opened at 612 per cent and closed at 62, with a decided tendency upward. A new movement has evidently commenced, and, from the character of the buyers, we should judge that prices would soon touch higher points than have yet been realized. Cleveland and Toledo advanced | per cent; Illinois Central bonds, | Michigan Southern, j. Chicago and Rock Island, j. The movement in Erie will probably for a time absorb the attention of the street, and it is possible other leading stocks may for the moment sympa-

thise, and slightly improve.

It appears from an official statement furnished by the Treasury Department that the exports from the United States during the first three quarters of the present facal year exceeded the imports in the same time. The official returns are as follows:—

The Boston Advertiser, of the 28th, gives the aumexed review of the stock market for that city:—
In stock matters we have little of importance to note, the "heated term" having fairly set in, and as a natural consequence duliness and inactivity prevait introughout the market, a stock here and there forming exceptions to the rule. There is more demand for some of the leading railroads, and prices have improved in three or four; but mostly from smail orders which have strayed into the market. Any large lots offered would at once frighten out buyers, and if forced for sale, quotations must recode. Among those most in demand Boston and Maine have improved from 75½ a 77½, Boston and Worcester 83 a 83½ bid, western 87 a 88 bid, and Finchburg has run up from 68 a 69½, but again receded to 68½, which comprise all the railroad stocks that have improved during the week. On the other hand Boston and Lowell has failtin off to 63 per cent (\$315 per share of \$600) and is heavy at that. Frovidence cannot be sold at 63, although buyers come very near the mark. Concord is dult at 59, with an occasional sale. Eastern has fallen from 41 to 40, the latter being the offering price. The price was recently forced up to 41, but the parties found the effort to keep it there rather too much this hot weather. Manche iter and Lawrence is offered at 60, without special buyers. Medigan Central has failen. In consequence of lower figures in New York, and \$2 is now the asking price. Northern is duil and has declined to 42½, but several small lots are wanted at 42. Old Colony is steady at 82½, neither demand nor supply being large. The stockis held principally by heavy capitalists, and as a consequence, does not come into the market freely. For Passumpsic preferred, 23 is but and 24 asked, without sales. The stock is worth about \$4 to \$5 per share. Cheshire preferred sells at \$17½ per share. Nashua 41 to 43, witnout sales in either.

Mining stocks are generally dull and heavy, Minnesota and Bockland being the only exceptions. Minnesota has imp aunexed review of the stock market for that city:-

shows the number of acres of land upon which taxes were assessed to be 45,893,869, and the as sessed value \$58,671,126. The number of town lots assessed was 40,136, at a value of \$10,108,538. The number of negroes 105,603, at \$53,373,924; number of horses 171,814, at \$7,943,878; and head of cattle of horses 171,514, at \$7,943,578; and head of cattle 1.433,792, at \$8,992,545. The total value of assessed property in the State was \$149,521,451. The whole tax raised upon this property was but \$225,270 40, which added to the poll-tax (\$20,982 30) makes the whole amount raised by taxation \$246,252 90.

It is shown by a Parliamentary return, just printed, that the total quantity of herring cured in Great Britain, during 1855, was 766,703 barrels; the quantity branded, 280,581 barrels; and the quantity exported, 442,264 barrels-being an increase over the preceding year of 130,141 barrels cured, 68,737 branded, and 80,567 exported. The quantity caught, but not cured, amounted in 1855 to 830,759 barrels, being an increase of 26,970 barrels over 1854. The total produce of the herring fisheries in 1855 amounted to 897,463 barrels, being 157,111 more than in 1854. Of cod and ling, during 1855, 113,561 cwt. was cured dried, and 6,316 barrels cured in pickle; the total quantity exported being 29,154 cwt. of the former, and 25 barrels of the latter. This was an increase as compared with 1854 of 9,597 cwt. cured, and 25 barrels exported. The total quantity caught, but not cured, amounted to 63,539 cwt., being an increase over the preceding year of 5,497 cwt., and when added to the quantity cured, makes the produce of the cod and ling fisheries for 1855, 177,100 cwt. and 6,316 barrels, being an increase over 1854 of 9,373 cwt. and 150 barrels. In 1855, 11,747 boats, manned by 41,602 fishermen and boys were emtotal number of persons engaged in the fisheries was 94,155, being an increase over the preceding year of 856 boats, 1,243 fishermen and 26,321 persons in the total number employed. The value of boats, nets and lines amounted in 1855 to £618,484, being an increase, as compared with 1854, of £31,064.
